MONKS & MERCHANTS

We are Monks & Merchants (subsidiary firm of Da Vinci Infratech). For the past several years, we've been the builders, architectural consultants and interior designers, serving our clients with utmost quality services. With our experience in interior designing, we came across the various problems that people face while sleeping due to incontinence issues or sleep troubles due to inappropriate mattress.

Hence we decided to work in the field of "SLEEP ENGINEERING". And we came-up with two vivid products to resolve the sleeping issues. Although, both our products are from two different segments (i.e. health care & home decor), but the motive is definitely same and that is "A carefree comfortable sleep" in most affordable price. With our innovative ideas, experience and ethics, we devised the high absorbency diapers and ultra-comfortable mattresses. In Monks & Merchants we care for the quality and we stick to the ethics. Hence we assure you the quality product form our side because Guardian is the symbol of trust and highest standard quality.

OUR BRANDS & PRODUCTS

GUARDIAN MATTRESSES

Guardian Orcid series mattresses are the India's first pocketed spring mattresses packed in a small box. This revolutionary step has completely brought the prices of premium mattress to about one fourth. Logistics and inventory expenses are lowered in a considerable way. And it is the most effective hybrid Latex mattress at present.

GUARDIAN ADULT DIAPERS

Guardian superia adult diapers are one of the India's highest absorbing capacity adult diapers. We strictly believe in the best quality product that's why we have only one variant which is superior and is cost effective for the wearer. Our minimum standards are equal to the markets highest standards. And that's what helps us to makes our product more pocket friendly with high quality.

The Orchid Series

Only varient in India

Hybrid Latex Mattresses

Guardian's orchid series mattresses are "Hybrid Latex Mattresses". It is specially engineered for an ultra-luxurious sleep without any partner disturbance. The natural latex top layer makes this mattress environment friendly and in-toxic. Guardian's latex mattresses are the perfect fusion of elasticity, quick response, breathability, comfort, firm edge support and an extended endurance limit. Natural latex is having a very great property of contouring according to the body lying over it, which, it gets from its natural molecular structure. Unlike the memory foam, it has a very quick response and regulates the temperature very well, keeping the surface cool. In guardian, we care for your health and hygiene, therefore orchid is free from harmful chemicals. It provides you a cloud like feel. Hence we assure you that orchid is a complete package for your uninterrupted and carefree sleep.

Harvesting Natural Latex

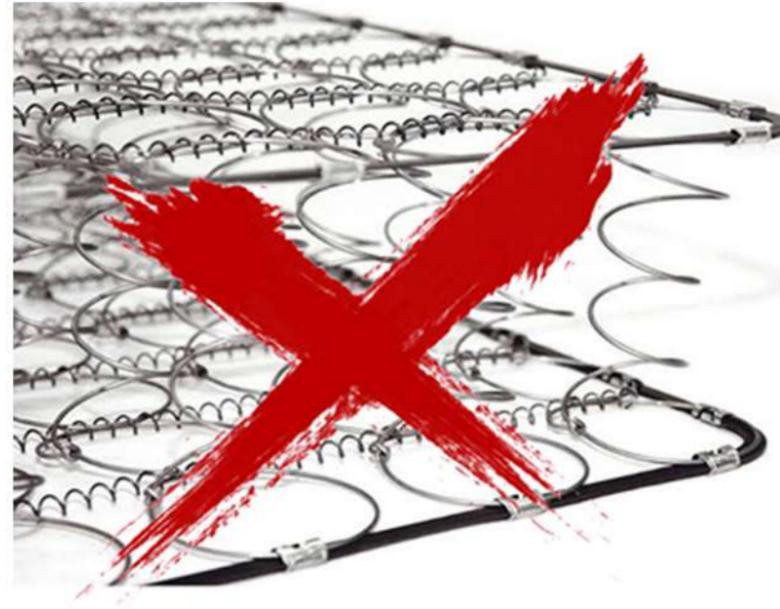

Why plant based natural latex is good for health?

Natural latex is made from the sap of the rubber tree from Thailand.

- It keeps you away from any heat that you would feel on PU Foam mattress, as it is not temperature sensitive.
- It does not sink you inside the mattress and provides a great support to your spine.

Natural latex is the most premium material used in mattress industry. It has all the necessary properties that makes it most demandable and popular.

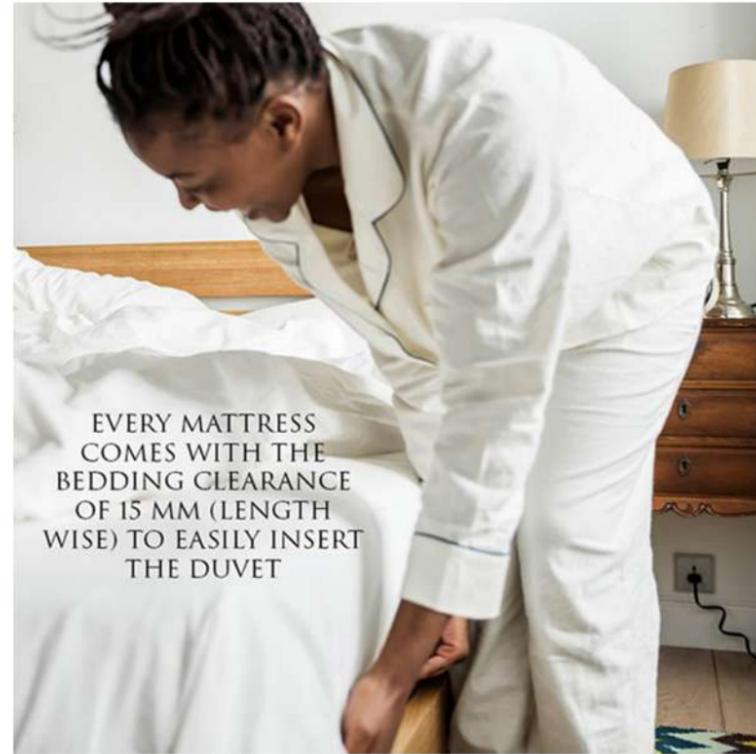

Pocketed spring is undoubtedly superior than any Foam or Bonnell spring mattress

BONNELL SPRING	POCKETED SPRING
Partner disturbance 100%	Partner disturbance 0%
Harmful for spine	Helps in healing spine & back pain issues.
Low shelf life.	Highest shelf life.
Heavy, hence high delivery charges.	Light hence free delivered in a small box.
Zero edge support.	Firm edge support.

PREMIUM SOLID WOOD
BEDS

The conifers series brings you the most affordable solid wood bed where we make sure, you do not have to use any tool while assembling it. It's a "bed in box" concept where you simply have to assemble the solid wood parts and enjoy the long life journey with your bed. The upholstered head board of the conifers gives it the most elegant look to make your personal space, the most desirable place to lay down.

PREMIUM SOLID WOOD BEDS WITH STORAGE

- The bed frame is completely made up of seasoned solid Canadian yellow wood and Malaysian teak wood which gives it the greatest durability and strength.
- The bed is easy to assemble without any tool. Which makes it portable and easy to move.
- The velvet upholstered head board gives it a dream bed look.
- The bed frame is made up of 38mm thick solid wood which is way to higher than 19mm plywood board.
- The bed with storage gives you upto 890 liters of storage space.
- The low height bed is gives it a “Zen bed” look and makes the bedroom bigger.

PREMIUM SOLID WOOD BEDS WITHOUT STORAGE

- The bed frame is completely made up of seasoned solid Canadian yellow wood and Malaysian teak wood which gives it the greatest durability and strength.
- The bed is easy to assemble without any tool. Which makes it portable and easy to move.
- The velvet upholstered head board gives it a dream bed look.
- The bed frame is made up of 38mm thick solid wood which is way to higher than 19mm plywood board.
- The bed without storage is having stainless steel gold chrome plating on its legs.
- The low height bed is gives it a “Zen bed” look and makes the bedroom bigger.

WHY SOLID WOOD?

The solid wood is the universal idol of long life and durability.

We specially select the wood and get it seasoned in the kiln with proper methodology.

38mm thickness avoids any sagging and provides the longest life to the furniture.

The natural texture of wood never goes out of fashion. And mild glossy finish on the surface gives it the metallic finish with never ending fashion.

Unlike sunmica, natural wood can be re-polished with desired wood stains to match the other furniture.

Strength, durability and elegance of natural wood is unmatched and unbeatable.
